Presenting Author Travel Grants

- These grants provide travel support to entry and mid-career investigators for attending the LXAI Research Workshop @ NIPS.
- The grants are awarded to researchers and scientists who have limited funds for travel but are the first or contributing authors on one or more abstracts submitted.
- Up to \$2,500 based on cost of travel, hotel accommodations, and as needed basis

Poster Travel Awards

These awards provide up to \$300 travel reimbursement to early career researchers whose abstracts selected for poster presentations only are deemed to be exceptional. Selection is based on the originality and significance of the research presented.
